Oxford Fertility

Giving Life a Helping Hand

## IN VITRO FERTILISATION (IVF)

<b>Pre Treatment - first cycle</b>	<b>£785</b>
<b>Medical Consultation</b>	<b>£225</b>
<b>Nurse Planning</b>	<b>£235</b>
<b>Baseline ultrasound scan of uterus and ovaries</b>	Included
<b>HIV, Hep B antibodies, Hep B antigen, Hep C blood test</b>	<b>£130</b> per patient
<b>Semen Analysis</b>	<b>£195</b>

<b>IVF Treatment Cycle</b>	<b>£4,495</b>
<p><b>IVF cycle</b></p> <p>✓ Includes all ultrasound scans &amp; oestrogen blood tests, egg collection under sedation, laboratory costs, embryo culture to day 3, embryo transfer, HFEA fee where applicable, one pregnancy scan, follow up medical consultation if within 3 months, one counselling session.</p> <p>IVF cycles with Genetic Testing do not include embryo transfer &amp; pregnancy scan – see Embryo Storage Cycle</p>	<b>£3,920</b>
<p><b>Advanced Embryology</b></p> <p>✓ Blastocyst culture of embryos We aim to culture all embryos to day 5. This is charged in addition to the IVF cycle cost, but will be refunded should culture to day 5 not be achieved.</p>	<b>£575</b>

Does not include drugs (approx. £950 - £2,250)

<b>Intracytoplasmic Sperm Injection (ICSI) Treatment Cycle</b>	<b>£5,725</b>
<p><b>IVF cycle</b></p> <p>✓ Includes all ultrasound scans &amp; oestrogen blood tests, egg collection under sedation, laboratory costs, embryo culture to day 3, embryo transfer, HFEA fee where applicable, one pregnancy scan, follow up medical consultation if within 3 months, one counselling session.</p> <p>IVF cycles with Genetic Testing do not include embryo transfer &amp; pregnancy scan – see Embryo Storage Cycle</p>	<b>£3,920</b>
<p>✓ <b>ICSI</b></p>	<b>£1,230</b>
<p><b>Advanced Embryology</b></p> <p>✓ Blastocyst culture of embryos We aim to culture all embryos to day 5. This is charged in addition to the IVF cycle cost, but will be refunded should culture to day 5 not be achieved.</p>	<b>£575</b>

Does not include drugs (approx. £950 - £2,250)

Oxford Fertility review costs annually. Please ensure that you have the current price list when booking for treatment. Medication costs quoted are offered as a guide only, actual costs may vary depending on individual patient requirements

<b>Embryo Storage Cycle</b>	<b>£4,495</b>
<b>IVF cycle - No transfer</b> ✓ Includes all ultrasound scans & oestrogen blood tests, egg collection under sedation, laboratory costs, embryo culture to day 3, HFEA fee where applicable, follow up medical consultation if within 3 months, one counselling session, freezing of all embryos.	<b>£3,920</b>
<b>Advanced Embryology</b> ✓ <b>Blastocyst culture of embryos</b> We aim to culture all embryos to day 5. This is charged in addition to the IVF cycle cost, but will be refunded should culture to day 5 not be achieved	<b>£575</b>

Does not include drugs (approx. £950 - £2,250)  
 Does not include the fee for ICSI if required  
 Does not include storage fees.

<b>Embryo Freezing</b>	<b>£820</b>
<b>Embryo freezing</b>	<b>£510</b>
<b>One year storage fee</b>	<b>£310</b>

## IN VITRO MATURATION (IVM)

<b>IVM Treatment Cycle</b>	<b>£3,295</b>
<b>IVM Cycle</b> ✓ Includes all ultrasound scans & oestrogen blood tests, ICSI, egg collection under sedation, laboratory costs, embryo culture to day 3, embryo transfer, HFEA fee where applicable, one pregnancy scan, follow up medical consultation if within 3 months, one counselling session.  <b>Please note specific eligibility criteria apply</b>	<b>£2,720</b>
<b>Advanced Embryology</b> ✓ Blastocyst culture of embryos We aim to culture all embryos to day 5. This is charged in addition to the IVM cycle cost but will be refunded should culture to day 5 not be achieved.	<b>£575</b>

Does not include drugs (approx. £220 - £530)

Oxford Fertility review costs annually. Please ensure that you have the current price list when booking for treatment. Medication costs quoted are offered as a guide only, actual costs may vary depending on individual patient requirements

## FERTILITY PRESERVATION

<b>Pre Treatment - first cycle</b>	<b>£785</b>
<b>Medical Consultation</b>	<b>£225</b>
<b>Nurse Planning</b>	<b>£235</b>
<b>Baseline ultrasound scan of uterus and ovaries</b>	included
<b>HIV, Hep B antibodies, Hep B antigen, Hep C blood test</b>	<b>£130</b> per patient
<b>Semen Analysis</b>	<b>£195</b>

<b>Egg Storage Cycle</b>	<b>£3,920</b>
<b>Egg freezing cycle</b> ✓ Includes all ultrasound scans & oestrogen blood tests, egg collection under sedation, laboratory costs, HFEA fee where applicable, follow up medical consultation if within 3 months, one counselling session, freezing of all eggs, one year's storage fee.	<b>£3,920</b>

Does not include drugs (approx. £950 - £2,250)

<b>Embryo Storage Cycle</b>	<b>£4,495</b>
<b>IVF cycle - No transfer</b> ✓ Includes all ultrasound scans & oestrogen blood tests, egg collection under sedation, laboratory costs, embryo culture to day 3, HFEA fee where applicable, follow up medical consultation if within 3 months, one counselling session, freezing of all embryos.	<b>£3,920</b>
<b>Advanced Embryology</b> ✓ <b>Blastocyst culture of embryos</b> We aim to culture all embryos to day 5. This is charged in addition to the IVF cycle cost, but will be refunded should culture to day 5 not be achieved	<b>£575</b>

Does not include drugs (approx. £950 - £2,250)

Does not include the fee for ICSI if required

Does not include storage fees.

<b>Sperm Freezing</b>	<b>£455</b>
<b>Sperm freezing</b> (per sample) Does not include semen analysis	<b>£145</b>
<b>Annual storage fee</b>	<b>£310</b>
<b>Surgical Sperm Retrieval (SSR)</b>	
<b>Surgical sperm retrieval (SSR) if required</b> ✓ includes sedation Does not include freezing and storage fees	<b>£1,200</b>

Oxford Fertility review costs annually. Please ensure that you have the current price list when booking for treatment.  
Medication costs quoted are offered as a guide only, actual costs may vary depending on individual patient requirements

## EGG DONATION

<b>Egg Recipient Treatment Cycle</b>	<b>£9,530</b>
<b>Egg recipient cycle</b> ✓ Includes all ultrasound scans and oestrogen blood tests, laboratory costs, embryo transfer, HFEA fee where applicable, one pregnancy scan, one counselling session.	<b>£8,955</b>
<b>Advanced Embryology</b> ✓ Blastocyst culture of embryos We aim to culture all embryos to day 5. This is charged in addition to the cycle cost, but will be refunded should culture to day 5 not be achieved.	<b>£575</b>

Does not include recipient drugs (approx. £270 - £480)  
 Does not include the fee for ICSI if required

<b>Egg Sharing Treatment Cycle</b>	<b>£655</b>
<b>IVF cycle</b> ✓ Includes all ultrasound scans and oestrogen blood tests, drugs for the IVF cycle, egg collection under sedation, laboratory costs, embryo culture to day 3, embryo transfer, one pregnancy scan, follow up medical consultation if within 3 months, one counselling session.	<b>No Charge</b>
<b>Advanced Embryology</b> ✓ Blastocyst culture of embryos We aim to culture all embryos to day 5. This is charged in addition to the cycle cost, but will be refunded should culture to day 5 not be achieved.	<b>£575</b>
<b>HFEA fee</b>	<b>£80</b>

<b>Egg Sharing ICSI Treatment Cycle</b>	<b>£1,885</b>
<b>IVF cycle</b> ✓ Includes all ultrasound scans and oestrogen blood tests, drugs for the IVF cycle, egg collection under sedation, laboratory costs, embryo culture to day 3, embryo transfer, one pregnancy scan, follow up medical consultation if within 3 months, one counselling session.	<b>No Charge</b>
<b>ICSI</b>	<b>£1,230</b>
<b>Advanced Embryology</b> ✓ Blastocyst culture of embryos We aim to culture all embryos to day 5. This is charged in addition to the cycle cost, but will be refunded should culture to day 5 not be achieved.	<b>£575</b>
<b>HFEA fee</b>	<b>£80</b>

Does not include drugs (approx. £950 - £2,250)

Oxford Fertility review costs annually. Please ensure that you have the current price list when booking for treatment.  
 Medication costs quoted are offered as a guide only, actual costs may vary depending on individual patient requirements

## EMBRYO RECIPIENT

Embryo Recipient Cycle	£2,925
<b>Embryo cycle</b> ✓ Includes all ultrasound scans & oestrogen blood tests, laboratory costs, embryo replacement, one pregnancy scan, HFEA fee where applicable, follow up medical consultation if within 3 months, one counselling session	£2,925

Does not include drugs (approx. £320 - £565)

## FROZEN EMBRYO REPLACEMENT AND EGG THAW

Frozen Embryo Replacement (FER) Cycle	£1,850
<b>FER cycle</b> ✓ Includes all ultrasound scans & oestrogen blood tests, laboratory costs, embryo replacement, one pregnancy scan, HFEA fee where applicable, follow up medical consultation if within 3 months, one counselling session	£1,850

Does not include drugs (approx. £320 - £565)

Egg Thaw ICSI Cycle	£4,005
<b>IVF cycle - Egg thaw</b> ✓ Includes scans, blood test, egg thaw, laboratory costs, embryo transfer, pregnancy scan, follow up consultation if within 3 months and first counselling session	£2,200
<b>ICSI</b>	£1,230
<b>Advanced Embryology</b> ✓ Blastocyst culture of embryos We aim to culture all embryos to day 5. This is charged in addition to the cycle cost, but will be refunded should culture to day 5 not be achieved	£575

Does not include drugs (approx. £320 - £565)

Oxford Fertility review costs annually. Please ensure that you have the current price list when booking for treatment. Medication costs quoted are offered as a guide only, actual costs may vary depending on individual patient requirements

## INTRA-UTERINE INSEMINATION (IUI)

<b>Pre-treatment - first Cycle</b>	<b>£785</b>
<b>Medical Consultation</b>	<b>£225</b>
<b>Nurse Planning</b>	<b>£235</b>
<b>Baseline ultrasound scan of uterus and ovaries</b>	included
<b>HIV, Hep B antibodies, Hep B antigen, Hep C blood test</b>	<b>£130</b> per patient
<b>Semen Analysis</b>	<b>£195</b>

<b>Intra Uterine Insemination (IUI)</b>	<b>£1,430</b>
<b>IUI cycle</b> ✓ Includes scans, blood test, preparation of sperm, insemination, pregnancy scan, follow up consultation if within 3 months and one counselling session	<b>£1,430</b>

Does not include drugs (approx. £320 - £565)

<b>Donor Insemination (DI)</b>	<b>£2,280</b>
<b>IUI cycle</b> ✓ Includes scans, blood test, preparation of sperm, insemination, pregnancy scan, follow up consultation if within 3 months and one counselling session	<b>£1,430</b>
<b>Donor Sperm for IUI cycle</b>	<b>£850</b>

Does not include drugs (approx. £320 - £565)

## OVULATION INDUCTION (OI)

<b>Ovulation Induction (OI)</b>	<b>£530</b>
<b>Ovulation Induction cycle</b> ✓ Includes all ultrasound scans session	<b>£530</b>

Does not include drugs (approx. £320 - £565)

Oxford Fertility review costs annually. Please ensure that you have the current price list when booking for treatment. Medication costs quoted are offered as a guide only, actual costs may vary depending on individual patient requirements

## ADDITIONAL SERVICES

Annual Storage Costs for Embryos, Eggs, and Sperm	
Annual storage cost	£310

Additional Treatments	Cost per item
<b>Counselling</b> - first session free if in active treatment	£110
<b>Medical Consultation</b>	£225
<b>Cyst Aspiration under sedation</b>	£300
<b>Embryo transfer under sedation</b>	£300
<b>Embryo Glue</b>	£200
<b>Endometrial scratch</b>	£300
<b>Endometrial scratch under sedation</b>	£540
<b>Embryoscope</b>	£445
<b>Natural Killer Cell test with Endometrial Scratch</b>	£715
<b>IMSI</b>	£510
<b>PICSI</b>	£260
<b>Assisted Hatching</b>	£570
<b>Intralipid Infusion</b> (per administration)	£275
<b>Donor Sperm</b>	£850
<b>Egg Freezing</b> (does not include storage)	£510
<b>Egg/ Embryo Recipient Registration fee</b> (non-refundable)	£260
<b>Egg Recipient Trial Cycle</b>	£610

Additional Scans	Cost per item
<b>Saline Ultrasound Scan</b>	£450
<b>Gynaecological or Early Pregnancy Scan</b>	£210
<b>HyCosy</b>	£450

Genetic Testing	Cost per item
<b>Recombine Test – per couple</b>	£900
<b>Sperm DNA Fragmentation Analysis (Comet Assay)</b>	£320
<b>Sperm DNA Fragmentation Analysis (SSR/Oligo Sperm)</b>	£420
<b>Sperm DNA Fragmentation plus Semen Analysis</b>	£410
<b>Y-Chromosome Micro-Deletion blood test</b>	price on application

Pre-natal Testing and Analysis of Miscarriages	Cost per item
<b>Non-invasive prenatal testing (NIPT) for aneuploidy</b>	price on application
<b>Products of conception (miscarriage) analysis</b>	£620

Oxford Fertility review costs annually. Please ensure that you have the current price list when booking for treatment. Medication costs quoted are offered as a guide only, actual costs may vary depending on individual patient requirements

## PRE-IMPLANTATION GENETIC SCREENING (PGS)

PGS using Next-Generation Sequencing (NGS)	Cost per item
<b>PGS with NGS for up to 5 embryos</b> ✓ Includes freezing of embryos, biopsy, analysis of up to 5 embryos and storage of embryos for an initial 3 months (storage beyond 3 months will incur the annual storage cost).	<b>£2,300</b>
<b>Additional analysis (per embryo)</b> ✓ If more than 5 embryos are to be tested, then each additional embryo will be charged individually.	<b>£200</b>

Does not include the cost of the IVF cycle to create embryos or any subsequent replacement cycles.

## PRE-IMPLANTATION GENETIC DIAGNOSIS (PGD)

PGD for Single Gene Defects	Cost per item
<b>PGD using Karyomapping for up to 5 embryos</b> ✓ Includes freezing of embryos, biopsy, analysis of up to 5 embryos and storage of embryos for an initial 3 months (storage beyond 3 months will incur the annual storage cost).	<b>£4,560</b>
<b>Additional analysis (per embryo)</b> ✓ If more than 5 embryos are to be tested, then each additional embryo will be charged individually.	<b>£200</b>

Does not include the cost of the IVF cycle to create embryos or any subsequent replacement cycles.

PGD for Chromosomal Translocations	Cost per item
<b>PGD using NGS for up to 5 embryos</b> ✓ Includes freezing of embryos, biopsy, analysis of up to 5 embryos and storage of embryos for an initial 3 months (storage beyond 3 months will incur the annual storage cost)	<b>£2,300</b>
<b>Additional analysis (per embryo)</b> ✓ If more than 5 embryos are to be tested, then each additional embryo will be charged individually.	<b>£200</b>

Does not include the cost of the IVF cycle to create embryos or any subsequent replacement cycles.

Thaw / Re-freeze	
<b>Thaw / Re-freeze of embryos</b>	<b>£370</b>

### Further information to be aware of:

Additional frozen embryos (untested) can be included for analysis and will be charged accordingly. The Thaw / Re-freeze cost will also be incurred in addition to the analysis fee.

If analysis is carried out on less than 5 embryos the cost remains the same. Once the analysis has been completed we cannot then retrospectively include embryos created in subsequent cycles within this fee. If less than 5 embryos are available, you may choose to delay analysis until embryos are available from further cycle(s) to be analysed together. This option will also incur the Thaw/Re-freeze cost above in addition to the analysis fee.

Oxford Fertility review costs annually. Please ensure that you have the current price list when booking for treatment. Medication costs quoted are offered as a guide only, actual costs may vary depending on individual patient requirements

## BLOOD TESTS

Blood Tests	Cost per item
<b>Female Hormone Profile</b> (FSH, LH, Testosterone, Prolactin, TSH, AMH)	<b>£195</b>
<b>Male Hormone Profile</b> (FSH, LH, Testosterone, Prolactin, TSH)	<b>£125</b>
<b>FSH</b>	<b>£50</b>
<b>LH</b>	<b>£50</b>
<b>AMH</b>	<b>£50</b>
<b>TSH</b>	<b>£50</b>
<b>Prolactin</b>	<b>£50</b>
<b>Oestrogen</b>	<b>£50</b>
<b>Progesterone</b>	<b>£65</b>
<b>Testosterone</b>	<b>£50</b>
<b>Female Thrombophilia</b>	<b>£625</b>
<b>Beta hCG</b>	<b>£50</b>
<b>HIV, Hep B (all) &amp; Hep C</b>	<b>£130</b>
<b>Hepatitis B antigen</b>	<b>£85</b>
<b>Hepatitis B core antibody</b>	<b>£70</b>
<b>Hepatitis C</b>	<b>£75</b>
<b>HIV</b>	<b>£50</b>
<b>CMV</b>	<b>£85</b>
<b>Rubella</b>	<b>£50</b>
<b>Syphilis</b>	<b>£50</b>
<b>Karyotyping</b>	<b>£285</b>
<b>Thyroid Antibodies</b>	<b>£95</b>
<b>Cystic Fibrosis</b>	<b>£200</b>
<b>Blood Group/Rh</b>	<b>£50</b>
<b>Zika Virus</b>	<b>£150</b>
Other Services	Cost per item
<b>Administration costs for gamete/embryo transport (within UK)</b> <i>excl. courier costs</i>	<b>£110</b>
<b>Administration costs for gamete/embryo transport (International)</b> <i>excl. courier costs</i>	<b>£200</b>

Oxford Fertility review costs annually. Please ensure that you have the current price list when booking for treatment. Medication costs quoted are offered as a guide only, actual costs may vary depending on individual patient requirements

## REFUND INFORMATION

Occasionally, patients choose to delay the start of their treatment. If this happens, then we will make a refund of any treatment costs minus a cancellation fee. You may, however, incur additional costs should any tests already undertaken need to be repeated when you resume your treatment.

If you should decide not to go ahead at all or if, unfortunately, it is necessary to discontinue treatment for medical reasons i.e. due to poor or excessive response to the treatment drugs, or a coincidental development of a medical condition during the treatment, a cancellation fee will apply.

Full details of the cancellation fees per treatment type are given in the table below.

Cancellation Fees	
Cancelled IVF or ICSI cycle before medication is started	£250
Cancelled IVF or ICSI cycle after one treatment scan	£500
Cancelled IVF or ICSI cycle before egg collection	£800
Cancelled IVM before egg collection	£525
Cancelled IUI cycle prior to insemination	£350
Cancelled FER cycle before cycle / medication is started	£150
Cancelled FER cycle before thawing of embryos*	£500
Cancellation of PGS or PGD before biopsy	£525
Cancelled Egg Sharer Cycle (If egg sharing does not proceed)	£1,180

\* When embryos are thawed in a FER cycle, should they fail to thaw successfully, there will not be a refund.

## Annual Storage for Embryos/Eggs/Sperm

Once you have consented to store your frozen embryos, eggs or sperm, every twelve months you will be asked to pay for continued storage. You will receive a letter asking for you to tell us if you want your samples to remain frozen and your agreement to pay for a further year of storage. If you decide to dispose of your frozen gametes, you must indicate this by completing the correct section, signing and returning the form so that it is received before the invoice is due.

**It is very important that you let us know if your contact details change at any time if you have gametes in frozen storage.**

## HOW TO PAY

Payment can be made by credit/debit card or by direct transfer to our bank account. We still accept cash or card payment at the clinic but cannot accept personal cheques or American Express card payments.

## PAYMENT TERMS

Please note that we will invoice in advance for your treatment cycle. Payment is required in full before commencing any treatment and we reserve the right to cancel treatment if payment has not been received.

Oxford Fertility review costs annually. Please ensure that you have the current price list when booking for treatment. Medication costs quoted are offered as a guide only, actual costs may vary depending on individual patient requirements

## ONE STOP FERTILITY ASSESSMENT

We have designed a range of Fertility Investigation packages to suit a range of circumstances. These provide fast, reliable and thorough investigations together with a review by one of our fertility specialists who can then give appropriate advice or treatment.

You do not need to see your GP to refer you. Just contact us for advice on which package will best suit you. Most of the packages shown below require just 1 or 2 visits to the clinic to complete all investigations and consultation, all in a fraction of the time normally needed when undertaken through a GP.

**Call us on 01865 782824 or email [onestop@oxfordfertility.co.uk](mailto:onestop@oxfordfertility.co.uk) to book an appointment.**
