

PRICE LIST

from 1st April 2020

Our price list is structured in sections to give you a clear view of the potential steps in your treatment and the associated costs, to allow you to make informed financial planning.

Payment for consultations, blood tests and investigations will need to be settled prior to or at the time of these appointments.

You will be required to pay for your Nurse Planning appointment but this will be deducted from your chosen treatment plan.

Payment for your chosen treatment must be paid prior to booking your cycle and organising your medication.

STEP 1: CONSULTATION AND INVESTIGATIONS

Before we can recommend a treatment pathway you will need to have a consultation with a doctor and may need a combination of investigations. This will allow us to plan the best treatment journey for you.

Treatment Consultation Oxford Fertility	£225
Treatment Consultation with AMH blood test	£260
Nurse Planning Appointment - includes baseline scan	£235
Semen Analysis	£195
Counselling (1 session included in all treatment packages)	£110

STEP 2: TREATMENT PACKAGES

Below you will find our treatment packages, which will form the base of your fertility treatment. Each treatment package includes:

- nurse planning appointment
- counselling
- HFEA fee
- blood tests for HIV, Hep B and Hep C
- monitoring bloods and ultrasound scans during the treatment cycle
- 1 review consultation or early pregnancy scan.

Prices for Pre-Implantation Genetic Testing are available on the Genetic Testing price list.
